SUMMARY

I am a UI/UX Designer with 3+ years of experience designing digital products. Skilled in full lifecycle product design, complex B2B SaaS architecture, data-driven design iteration, and responsive system specs, with a strong understanding of frontend engineering patterns and e-commerce ecosystems. My background in software development and entrepreneurial team leadership allows me to approach problems from both the user and business perspectives. Experienced in collaborating with cross-functional teams to deliver intuitive, scalable, and impactful solutions.

EDUCATION

University of Atma Jaya Yogyakarta (UAJY) 2017 – 2022
Bachelor, Informatics(s) | GPA: 3.33/4.00 Yogyakarta, Indonesia

- Thesis: Development of a Web-Based E-Commerce Application for Pottery Craft Product Sales
- Clubs: Graphic Design, Linux, Leadership Club

- Led product **design strategy** and **design workflow** ensuring **UX consistency across platform**.
- Collaborated with **developers** and **stakeholders** to deliver **2 major project milestones on schedule**.

UI/UX Designer May, 2024 – March, 2025
Daun Salam Teknologi, Inc. – Hybrid Yogyakarta, Indonesia

- Designed a **major project** user interface used by **500–1000+ employees**.
- Improved **task performance speed** by **50%** through **streamlined interface** and **optimized workflows**.
- Improved user adoption **significantly** by **incorporating employee feedback** and **iterative design testing**.

Quality Assurance January, 2022 – July, 2023
beIN SPORTS CONNECT, Inc. Asia Pacific (APAC) – Remote Mapletree Business City, Singapore

- Identified and reported **150–300+ bugs** using JIRA across platform.
- Applied **different testing methods** to **improve payment success rate** significantly.
- Improved **platform reliability** by **identifying root causes** of user complaints and server errors.

Full Stack Developer June, 2021 – September, 2021
Mitra Sejahtera Membangun Bangsa, Inc. (MSMB) – Internship Yogyakarta, Indonesia

- Developed a **web-based Leave Management System** using PHP and MySQL for **25+ employees**.
- Collaborated directly with the **CTO** to define **project requirements** and implement **technical best practices**.
- Improved leave approval **time efficiency** by **50%** by replacing manual processes with **automated workflows**.

PROJECTS

UI/UX Designer: Eyegil User Management System | Figma 2026

- Designed a **comprehensive user interface** for **secure** user management **features**.
- Maintained **strict UI consistency** across all platform screens and layouts.

UI/UX Designer: Eyegil Project Management System | Figma 2025

- Designed **simple and intuitive interface** to **simplify** project management **workflow**.
- Ensured **cohesive visual alignment** across the platform to **reduce user friction**.

Project Lead: Amazain Content Management System (CMS) | Google Workspace, Figma 2025

- Led **end-to-end product lifecycle** and **feature scoping** for a **tailored custom CMS**.
- Determined **functional specifications** aligning UI design with **business goals**.

Project Lead: Hasnur Riung Sinergi Leave and Work Approval Management System | Google Workspace, Figma 2024

- Managed **stakeholder requirements** to deliver a **tailored enterprise approval management system**.
- Mapped **complex logic workflows** to **streamline corporate HR operations**.
